Subject Index to Volume 6

Aboriginal children, growth and immune function during recovery from malnutrition and infection, 321
South Australian, diabetes and associated variables in, 191
Aborigines, Australian, and Torres Strait Islanders, hepatitis B in; geographical, age and familial distribution of antigen subtypes and antibody, 106
Australian, does duodenal ulcer exist in, 545
South Australian, blood pressures and electrocardiographic findings in the, 197
visual acuity and retinal changes in, 205
Airways obstruction, chronic, effect on respiration of diazepam, chloropromazine and haloperidol in patients with, 561
Alcohol usage as a possible explanation for socio-economic and occupational differentials in mortality from hypertension and coronary heart disease in England and Wales, 393
Alcoholic hepatitis and cirrhosis, the pathogenesis of, 78
Alcoholics, tuberculous, effect of rifampicin on liver morphology in, 111
Aldosteronism, primary, outpatient screening tests for, 131
Alpha-1 antitrypsin, pulmonary elastic recoil and diffusing capacity in subjects with intermediate concentrations of, 284
Alpha fetoprotein in liver disease in Papua New Guinea, 117
Anaemia associated with microangiopathy, penicillin-induced haemolytic, 152
Analgesic abuse and kidney disease, 498
Analysis of two-category data from small independent samples, 141
Antibody and antigen subtypes, geographical, age and familial distribution of; Hepatitis B in Australian aborigines and Torres Strait Islanders, 106
Antigen, carcinoembryonic (CEA), smoking and cancer in a longitudinal population study, 279
ratio and factor VIII procoagulant in the diagnosis of carriers of haemophilia, assessment of the value of, 218
subtypes and antibody, geographical, age and familial distribution of: Hepatitis B in Australian Aborigines and Torres Strait Islanders, 106
Antigens, histocompatibility, in Graves' disease, 297
Antihypertensive therapy, a test of the effectiveness on the incidence of ischaemic heart disease; Australian National blood pressure study, 403
Aspirin preparation, enteric coated, evaluation of, 45
Atherosclerosis, prospects of prevention in the young, 410
Atherosclerotic and other diseases, the relative importance of the major risk factors in, 387

Behavioural epidemiology and coronary heart disease; some sources of error and an alternative conceptual model, 425
Blood pressures and electrocardiographic findings in the South Australian aborigines, 197
Blood pressure study, Australian National; a test of the effectiveness of antihypertensive therapy on the incidence of ischaemic heart disease, 403

Calcium dialysate, high, use in the treatment of renal osteomalacia, 10
metabolism after renal transplantation, 214
Cancer, carcinoembryonic antigen (CEA) and smoking in a longitudinal population study, 279
gastrointestinal, abnormal "activated" rosette formation in patients with, 536
Carbamazepine therapy, nerve conduction studies before, during and after; diabetic peripheral neuropathy, 565
Carcinoembryonic antigen (CEA), smoking and cancer in a longitudinal population study, 279
Carcinoma of the lung, watery diarrhoea syndrome associated with, 490
Cardiovascular complications due to pheniramine overdosage, 65
Chest pain occurring with the Master two step test, the significance of, 22
Chloropromazine, diazepam, and haloperidol, effect on respiration in patients with chronic airways obstruction, 561
Cirrhosis and alcoholic hepatitis, the pathogenesis of, 78
Colitis, salmonella typhimurium, 345
Complement and the clinician, 349
Continuing education of the physician, 509
Contraceptives, oral, and the haemolytic uraemic syndrome, 580
Coronary arteriographic information, consensus opinion and observer accuracy in electrocardiography with reference to, 429
Coronary Care Unit, changing results of treatment of infarction in, 433
Coronary heart disease and behavioural epidemiology; some sources of error and an alternative conceptual model, 425
and hypertension in England and Wales, alcohol usage as a possible explanation for socio-economic and occupational differentials in mortality from, 393
Corpus callosum tumour, ventricular visualization on the brain scan associated with a, 149
Cystography, radionuclide micturating, detection of vesicoureteric reflux using, 542

Dermatitis, exfoliative, hepatitis and interstitial nephritis, drug induced, 583
Diabetes and associated variables in the South Australian aboriginal, 191
Diabetes mellitus and tropical form of chronic calcific pancreatitis in Thailand, 316
Diabetic peripheral neuropathy; nerve conduction studies before, during and after carbamazepine therapy, 565
Dialysate regeneration system for maintenance haemodialysis, clinical evaluation of, 292
Diarrhoea (WDHA) syndrome, watery, associated with carcinoma of the lung, 490
Diazepam, chloropromazine and haloperidol, effect on respiration in patients with chronic airways obstruction, 561

Diazoxide-induced renin release in diagnosis of remediable renovascular hypertension, 26
Disaccharidase levels, lowered jejunal, significance of, 556
Duodenal ulcer; does it exist in Australian aborigines? 545

Electrocardiographic findings and blood pressures in the South Australian aborigines, 197
Electrocardiography, consensus opinion and observer accuracy with reference to coronary arteriographic information, 429
Embolism in the lung, neonatal brain tissue, 146
Encephalitis in Australia, 1974, Murray Valley: antibody response in cases and community, 446
melioidosis presenting as, 156
Epidemiologist's contribution to medical care planning and evaluation (review), 74
Epidemiology, behavioural, and coronary heart disease: some sources of error and an alternative conceptual model, 425
of hepatitis B in a residential institution for the mentally retarded, 521
Erythrocyte membrane function, relationship to serum bilirubin concentration and plasma electrolyte disturbances; haemolysis in liver disease, 3

Factor VIII procoagulant and antigen ratio in the diagnosis of carriers of haemophilia, assessment of the value of, 218
Framingham study, recent highlights from, 373

Gangrene following intra-arterial injection of procaine penicillin, 71
Gastric surgery, giardiasis following, 479
ulcer, chronic, a complication of; double pylorus, 576
ulcers, effect of prostaglandin E2 on the healing of; a double-blind endoscopic trial, 121
Gastrointestinal cancer, abnormal "activated" rosette formation in patients with, 536
tract, extensive primary lymphoma of, 571
Gastroscopy and intramuscular injections, changes in plasma enzyme concentrations following, 548
Giardiasis following gastric surgery, 479
Gigantism, an unusual case of local, 347
Goitre survey in Armidale and the New England Region, 304
Granulomatosis, Wegener's, myocardial infarction in, 336
Granulomatous hepatitis, chronic, 474
Graves' disease, histocompatibility antigens in, 297
Gut 1976, a flexible view of, 514

Haemangioendothelial sarcoma, thorotrast-induced; a lesson from the past, 329
Haemodialysis, a clinical evaluation of large-area short-time, 288
maintenance, clinical evaluation of a dialysate regeneration system for, 292
Haemolysis in liver disease; relationship to erythrocyte membrane function, serum bilirubin concentration and plasma electrolyte disturbances, 3
Haemolytic anaemia, penicillin-induced, associated with microangiopathy, 152
severe, complicating infectious mononucleosis, 569
uraemic syndrome and oral contraceptives, 580
Haemophilia, assessment of the value of factor VIII procoagulant and antigen ratio in the diagnosis of carriers of, 218
Haloperidol, diazapam and chloropromazine, effect on respiration in patients with chronic airways obstruction, 561
Headache and hypertension, 492
Heart disease, ischaemic, a test of the effectiveness of antihypertensive therapy on the incidence of; Australian National blood pressure study, 403
Heparin therapy, subcutaneous, plasma heparin concentrations during, 454
Hepatitis, acute viral, detection of hepatitis B surface antigen in patients with, 7
alcoholic, and cirrhosis, the pathogenesis of, 78
chronic granulomatous, 474
exfoliative dermatitis and interstitial nephritis, drug induced, 583
post-transplantation, fulminant, systemic herpes simplex infection with, 588
viral, the probable significance of hypertriglyceridaemia in, 529
Hepatitis B antigen subtypes in asymptomatic carriers in the Solomon Islands, 210
in a residential institution for the mentally retarded, epidemiology of, 521
in Australian aborigines and Torres Strait Islanders: geographical, age and familial distribution of antigen subtypes and antibody, 106
surface antigen in patients with acute viral hepatitis, detection of, 7
Hepatoma, metastatic, in the stomach masquerading as a leiomyoma, 341
Hereditary thrombocytopathy; a familial bleeding disorder due to impaired platelet coagulant activity, 37
Herpes simplex infections, systemic, with fulminant hepatitis post-transplantation, 588
Histocompatibility antigens in Graves' disease, 297
Hospital services for stroke patients, rationalisation of, 407
Hypersensitivity, immediate; a clinical review, 158
Hypertension and coronary heart disease in England and Wales, alcohol usage as a possible explanation for socioeconomic and occupational differentials in mortality from, 393
and headache, 492
community control of, 401
due to renal tuberculosis: assessment by renal vein renin sampling, 229
remediable renovascular, diazoxide-induced renin release in diagnosis of, 26
the rate of initiation of treatment in a community, 1971–1975, 398
Hypertriglyceridaemia, the probable significance in viral hepatitis, 529
Hypoglycaemia, insulin induced, hypokalaemia occurring during, 314
Hypokalaemia occurring during insulin induced hypoglycaemia, 314
Hypothyroidism, a report of 14 cases, and 4 cases of thyrotoxicosis; lithium associated thyroid disease, 223
recurrent ventricular tachycardia in, 68

Hypoxaemia, profound, intermittent obstruction of the upper airway during sleep causing; a neglected mechanism exacerbating chronic respiratory failure, 481

Immune complexes in the pathogenesis of disease, the role of, 591
function, monitoring during immunosuppressive therapy, 136
Immunological changes and liver disease associated with α_1-antitrypsin deficiency, 467
Immunosuppressive therapy, monitoring immune function during, 136
Infarction, acute myocardial; one year follow-up of 1138 cases from the Perth community coronary register, 437
changing results of treatment in a Coronary Care Unit, 433
myocardial, in Wegener's granulomatosis, 336
Infection and malnutrition, growth and immune function in Aboriginal children during recovery from, 321
Infectious mononucleosis, severe haemolytic anaemia complicating, 569
Insulin induced hypoglycaemia, hypokalaemia occurring during, 314
Internal Medicine, maintenance of standards in, 57
Interstitial nephritis, hepatitis and exfoliative dermatitis, drug induced, 583
Iodide status in Singapore, T_3 toxicosis and its relation to, 311

Jejunal disaccharidase levels, lowered, significance of, 556

Kidney disease and analgesic abuse, 498

Lactate concentration, regional differences in experimental myocardial infarction, 15
Leiomyoma, metastatic hepatoma in the stomach masquerading as a, 341
Leukaemia, chronic lymphocytic, thymus with B lymphocytes in, 463
Leukaemias, human and experimental acute, smooth muscle-associated contractile protein in, 459
Lipoproteins, plasma, in subjects treated with the bile acid-sequestering resin polidexide (Secholex^R), changes in, 127
Lithium associated thyroid disease; a report of 14 cases of hypothyroidism and 4 cases of thyrotoxicosis, 223
for the non-psychiatrist, aspects of the use of, 233
Liver disease and immunological changes associated with α_1-antitrypsin deficiency, 467
associated with HB_sAg carriers, follow-up studies on, 539
haemolysis in; relationship to erythrocyte membrane function, serum bilirubin concentration and plasma electrolyte disturbances, 3
in Papua New Guinea, Alpha fetoprotein in, 117
Liver morphology, effect of rifampicin in tuberculous alcoholics, 111
Lung, carcinoma of the, watery diarrhoea syndrome associated with, 490
function in asymptomatic cigarette smokers—the single breath nitrogen test, 123
neonatal brain tissue embolism in the, 146
Lymphoma, extensive primary, of the gastrointestinal tract, 571

Malnutrition and infection, growth and immune function in Aboriginal children during recovery from, 321
Medical care planning and evaluation, the epidemiologist's contribution to, 74
Medical Research in Australia, 1
Melioidosis presenting as encephalitis, 156
Meningococcaemia, vaginal isolation of neisseria meningitidis in association with, 487
Metabolism, calcium, after renal transplantation, 214
Metastatic hepatoma in the stomach masquerading as a leiomyoma, 341
Microangiopathy, penicillin-induced haemolytic anaemia associated with, 152
Mononucleosis, infectious, severe haemolytic anaemia complicating, 569
Murray Valley encephalitis in Australia, 1974: antibody response in cases and community, 446
Myocardial infarction, acute; one year follow-up of 1138 cases from the Perth community coronary register, 437
experimental, regional differences in lactate concentration in, 15
in Wegener's granulomatosis, 336

Neisseria meningitidis in association with meningococcaemia, vaginal isolation of, 487
Neonatal brain tissue embolism in the lung, 146
Nerve conduction studies before, during and after carbamazepine therapy; diabetic peripheral neuropathy, 565
Neuropathy, diabetic peripheral, nerve conduction studies before, during and after carbamazepine therapy, 565

Oral contraceptives and the haemolytic uraemic syndrome, 580
Osteomalacia, renal, use of high calcium dialysate in the treatment of, 10

Pancreatitis, acute, studies on serum amylase in normal man and in, 551
chronic calcific, in Thailand, diabetes mellitus and tropical form of, 316
Papua New Guinea, alpha fetoprotein in liver disease in, 117
Penicillin-induced haemolytic anaemia associated with microangiopathy, 152
Penicillin, procaine, gangrene following intra-arterial injection of, 71
Pheniramine overdosage, cardiovascular complications due to, 65
Physician and the private patient, 103
on the continuing education of, 509
Pituitary reserve, anterior, a combined test of, 30
Plasma electrolyte disturbances, relationship to erythrocyte membrane function and serum bilirubin concentration; haemolysis in liver disease, 3

enzyme concentrations following intramuscular injections and gastroscopy, changes in, 548
heparin concentrations during subcutaneous heparin therapy, 454
lipids, comparison at birth and in second year of life, 420
lipoproteins in subjects treated with the bile acid-sequestering resin polidexide (secholex^{R}), changes in, 127
Primary aldosteronism, outpatient screening tests for, 131
Prostaglandin E2, effect on the healing of gastric ulcers; a double-blind endoscopic trial, 121
Pulmonary elastic recoil and diffusing capacity in subjects with intermediate concentrations of Alpha-1 antitrypsin, 284
Pylorus, double; a complication of chronic gastric ulcer? 576

Radionuclide micturating cystography, detection of vesicoureteric reflux using, 542
Renal osteomalacia, use of high calcium dialysate in the treatment of, 10
transplantation, calcium metabolism after, 214
tuberculosis, hypertension due to; assessment by renal vein renin sampling, 229
Renovascular hypertension, remediable, diazoxide-induced renin release in diagnosis of, 26
Respiration, effect of diazepam, chloropromazine and haloperidol in patients with chronic airways obstruction, 561
Respiratory failure, chronic, a neglected mechanism exacerbating; intermittent obstruction of the upper airway during sleep causing profound hypoxaemia, 481
Retinal changes and visual acuity in South Australian aboriginals, 205
Rifampicin, effect on liver morphology in tuberculous alcoholics, 111

Salmonella typhimurium colitis, 345
Sarcoma, haemangioendothelial, thorotrast-induced; a lesson from the past, 329
Scleroderma (progressive septemic sclerosis) with severe bowel involvement; treatment by extensive resection of the small intestine, 470
Serum amylase, studies in normal man and in acute pancreatitis, 551
bilirubin concentration, relationship to erythrocyte membrane function and plasma electrolyte disturbances; haemolysis in liver disease, 3
Smoking, carcinoembryonic antigen (CEA) and cancer in a longitudinal population study, 279
Spirometric values for normal Perth children aged six to twelve years, 51
Stroke patients, rationalisation of hospital services for, 407
Systemic herpes simplex infection with fulminant hepatitis post-transplantation, 588

T_3 toxicosis and its relation to the iodide status in Singapore, 311
Tachycardia, recurrent ventricular, in hypothyroidism, 68
Thorotrast-induced haemangioendothelial sarcoma; a lesson from the past, 329
Thrombocytopathy, hereditary; a familial bleeding disorder due to impaired platelet coagulant activity, 37
Thymus with B lymphocytes in chronic lymphocytic leukaemia, 463
Thyroid disease, lithium associated; a report of 14 cases of hypothyroidism and 4 cases of thyrotoxicosis, 223
gland, human, evidence that mouse thyroid stimulator does not stimulate the, 300
Thyrotoxicosis, a report of 4 cases, and 14 cases of hypothyroidism; lithium associated thyroid disease, 223
Transplantation, renal, calcium metabolism after, 214
Tuberculosis, renal, hypertension due to; assessment by renal vein renin sampling, 229
Tuberculous alcoholics, effect of rifampicin on liver morphology in, 111
Tumour, corpus callosum, ventricular visualization on the brain scan associated with a, 149

Ulcer chronic gastric, a complication of; double pylorus, 576
